4. Chairperson Report

Sandi Bell, Vice-Chair presented the report and highlighted the growth of the agency in the last fiscal year, spoke to the collaborations and partnerships new and old, and relationship building with the new LHIN structure. Sandi also spoke to the strategic planning and restructuring process the board has begun and looked forward to reporting at the next AGM on this.

Special thanks presented to all board members, staff, clients and volunteers.

5. Report from Staff

i) Administration
Aseefa Sarang reported on the various activities the agency has been involved in over the last year, ranging from continued advocacy, to developing relationships with the new LHIN body, use of anti-oppression/anti-racism as a core value of the organization and the related challenges, the Needs Assessment conducted on the adult mental health population resulting in interesting trends and recommendations and the activities surrounding the strategic planning and restructuring. A very busy year was completed and already the New Year has started on a very busy note.
ii) Programs
Martha Ocampo presented the programs and services report for the year, noting a total of 436 clients served. The partnerships with Mainstay Housing and CHMA under the Mental Health and Justice Initiative continue to flourish and capacity building and community engagement with members of the Tamil, Caribbean, Ghanaian, Punjabi and South Asian communities continue. The center engaged in an evaluation of the programs provided and looks forward to developing evaluation tools to better reflect measurable outcomes of the holistic approach to mental health care within an anti-racism and anti-oppression framework used at Across Boundaries.

6. Treasurer’s Report

i) Presentation of Financial Report
Charmaine Williams presented the audited financial report and statements for the period of April 2006 - March 2007, and explained the revenue and expenses for the fiscal year.

Charmaine Williams recommended the acceptance of the financial report and statements for the fiscal year 2006 - 2007 as presented.

SLATE OF NOMINATIONS

Returning Board Members:

ASHA MOORE CLARKE

AZARGIVE, SARA

Sara is a lawyer and works with the Ministry of Government Services of the Ontario Government. Her work involves regulatory reform related to corporate law with a specific focus on corporate structure, board governance and fiduciary issues. Prior to her current position, her practice at the Office of the Information and Privacy Commissioner of Ontario focused exclusively on privacy and access to information law. Volunteer work, particularly in the health sector, is an important part of Sara’s life. Aside from her commitments to Across Boundaries, she has devoted her time to the Board of Directors of the Sunnybrook Foundation where she worked to develop the Foundation’s Board Governance Framework. She is also a director on the Multiple Sclerosis Society of Canada’s Toronto Chapter Board. Sara holds a BA from the University of Toronto and obtained her law degree from the University of Ottawa Law School.

BELL, SANDI

As the president of EMPOWWORD Inc., a mediation and training and development firm, Sandi Bell offers a comprehensive range of “people-focused” expertise. She has extensive background dealing with interpersonal and organizational conflict, child welfare, education, youth matters, disability issues and workplace situations (including harassment and discrimination). Sandi’s special mediation style has not gone unnoticed by disfranchised sectors of our community, including Aboriginal & First Nation people, youth, people with disabilities, and people from a wide range of racial/ethnic/cultural and religious communities. They regularly seek her out based on her reputation for knowledge of and sensitivity to Canada’s diverse communities and the challenges they face. Further, Sandi assists companies to implement and monitor their effectiveness, including equal opportunities in the workplace, as well as board development training for non-for-profit agencies. Sandi is also very actively involved in various community boards and committees in various capacities.

Sandi is a part time Commissioner with the Canadian Human Rights Commission and is pleased to be on the Mental Health and Law Advisory Committee to the Canadian Mental Health Commission.

GILAO, MOHAMED

IDIL ABDILLahi

Idil Abdillahi has completed her Master Degree in Social Work at Ryerson University where her focus was on Anti-oppression and Anti Racism social work practice. She
has worked in a multiplicity of roles both as a practitioner and within a leadership capacity for several years in areas such as; violence against womyn, mental wellness and addictions. Her areas of interest include; the implementation/evaluation of Anti-oppressive practices within organizations, invisible homelessness and world majority communities, the effects of globalization in the global south and the dialectic between gender identity and race. Idil attributes much of her success and determination to her sole support parent (her mother) who has been an excellent example of struggle, survival and success; and her mentor Dr. Lisa Barnoff who assisted her in situating herself within a western academic context.

**SHROUDER, KEITH**

Keith Shrouder holds a Bachelor of Commerce degree in Accounting and Finance and a Certificate in Adult Education, both from Concordia University, Montreal, Quebec. ACROSS BOUNDARIES’

TWELFTH ANNUAL GENERAL MEETING

October 15, 2008

A Registered Charitable Organization
Charitable # 14098 8262 RR 001
Message from the Chair of the Board of Directors

I am pleased to present this report on behalf of the board of Across Boundaries.

The past year (2007-2008) has continued to be busy for the board, as we managed our growth within the new environment of the LHIN’s while ensuring that we continue to provide the best service to our clients and maintaining the utmost support to our staff.

Amidst all ‘service as usual,’ we have continued with our strategic planning and organizational restructuring activities. This process helped us get to know each other as individuals while working as a collective team throughout the task of defining the path of Across Boundaries for the next few years. This undertaking included much thoughtful discussion and deliberations as we considered all factors that impact Across Boundaries today and in the future. This path will include some new directions for the agency as well as continuation of ongoing work, including the following:

- Expanded Client Programs and Services
- Research
- Capacity Building through Education and Training
- Enhancing Sustainability
- Advocacy through promotion of the agency’s profile

In terms of our organizational structure, following further in-depth discussions, comparisons of various structures, and consideration of what is in the best interest of Across Boundaries, we will be moving toward an Executive Director Model of leadership from the current Co-Director Model. The Co-Director Model served the agency well for many years and complimented the core values of the agency. While this Co-Director Model remains valid today, we are of the view that moving toward the Executive Director Model will be beneficial to the agency as it grows; as it provides services within an external environment of change; and will enable the agency to continue to provide appropriate services to clients and support to staff.

As with any significant change, this requires associated funding. While we do not have the funds yet, it will be a priority area of the board to ensure that we secure those funds and embark on the transition to the new structure. We commit to do so in a manner that has the least impact on the agency, our clients and staff.

We have also spent a great amount of time considering the values and principles embedded in the agency which impact everything we do. We are proud to present our new mission and vision statement to you. It is timely and all encompassing in its nature. During this task, we struggled to ensure that the mission and vision focus on issues relevant to our population, what we do and doing it well, yet being realistic as there is so much we would like to be able to undertake. The Board is of the view that this new mission statement is focused, clear and transparent.
We also worked hard to define our approach in terms of the anti-racism/anti-oppression model. After a lot of soul searching and discussion the Board concluded that we will continue with this framework in which so many of us, including Board Members, staff, clients and other volunteers are impacted and in which we believe. At the same time, Across Boundaries will continue to engage other approaches to equity to ensure that we are able to offer education to other agencies and service providers, from a variety of perspectives/models to meet their needs.

Sandi Bell, Chair, Board of Directors

One of the genuine pleasures of being a Board Member of Across Boundaries is the wonderful people one meets and engages with. The Board Members want to thank every member of staff for your dedication to the people we serve. We also thank the two Co-Directors for their wisdom, knowledge, (and at times patience with us, the Board Members). Finally, I wish the thank each of my colleagues on the board who have brought a wide range of skills, talents, and commitment to Across Boundaries.

The journey of a butterfly symbolizes change that transforms life. The innovative work of Across Boundaries transforms the life of racialized families challenged by mental health and addiction concerns.
ABOUT US...

By Aseefa Sarang  
Co-Director Administration

Across Boundaries is the first mental health agency in Canada, which operates within an anti-racism/anti-oppression framework. It is one of the only two mental health agencies in Toronto serving the people of colour communities.

Recent reports indicate that racialized communities are among the most disadvantaged and would consequently have greater health and mental health issues. Western psychiatric approaches and Eurocentric service delivery models are not always appropriate for individuals who originate outside of Europe. As tax payers and equal participants in society, people of colour communities are entitled to appropriate services. Recent studies have explored and validated the need for ‘integrated’ or ‘holistic’ care from an anti-racism/anti-oppression framework.

Across Boundaries has a holistic model of mental health care that also integrates the principles of health promotion and prevention, medical and complementary approaches. The center recognizes the interdependence of spiritual, emotional, mental, physical, social, economic, cultural, linguistic and broader environmental aspects of life, playing a key role in the recovery process of individuals.

The agency supports and initiates creative, effective, and sustainable programs and projects which facilitate the empowerment of consumer survivors of colour. Across Boundaries will continue to share its knowledge and expertise, gained over thirteen years of service, and articulate contemporary, relevant, and inclusive ‘better practices’. The mental health system as a whole benefits by being able to access a model that is appropriate (sensitive to race, gender and culture which is one of the guiding principles of Mental Health Reform) and accessible by communities of colour.

Revised Vision, Mission, Goals and Values Statements

VISION

Across Boundaries is a leader in providing equitable, inclusive and holistic mental health and addiction services for communities of colour and operates within an anti-racism/anti-oppression framework.

MISSION

Across Boundaries provides a range of supports and services that identify and honour the strengths of individuals, families, and communities of colour - while recognizing and addressing the negative impact of racism and discrimination on their mental health and well being. Our services are grounded in up-to-date knowledge and research, community engagement, capacity building, and an awareness of the intersection of personal identities. Advocacy, training, and education within the health care sector that brings about individual, families, institutional and systemic change are strong components of our commitment to quality mental health and addiction care for people of colour.

VALUES:

Equity
We recognize the intersectionality of identities among people of colour, and address the disparities related to social location by providing services that reflect the needs and realities of our clients.

Transparency
We are accountable to our clients and to the communities we serve and provide respectful services and programs.

Client-Centered
We recognize the importance of the whole person, and the role of the family and community in their recovery and wellness.

Collaborative
We work in partnership with individuals, families, communities and other agencies to build capacity and address the needs of our clients and support their health and recovery.

Innovative
At Across Boundaries, we are responsive to the ever-changing realities. We include a variety of

GOALS

Across Boundaries recognizes that...

- Racism and racial discrimination impacts on the health and mental health of individuals and communities of colour.
- Individual and systematic racism is a barrier to accessing health and mental health care for people of color.
- There is diversity among people of color who, in addition to race, may also be discriminated against based on their religion, language, ethnicity, class, gender, sexual orientation, disabilities, age, country of origin and citizenship status.
healing approaches to help achieve and maintain wellness in ways that are meaningful and relevant to the lived experiences, and cultures of our clients.

Holistic
We believe in addressing the interdependence of the spiritual, emotional, mental, physical, social, cultural, linguistic, economic and broader environmental aspects of health that affect the well being of people of colour.
Program and Services Report 2007 - 2008

In the fiscal year 2007-2008 Across Boundaries’ programs and services served a total of 530 clients: Adult Mental Health 277; Mental Health and Justice Initiative 50; and Youth Mental Health and Addiction Programs 203.

The youth program popularly known as Y-Connect is a joint partnership program with the Griffin Centre, continues to develop programs in collaboration with other agencies and organization in the immediate neighborhood and surrounding areas of Jane and Finch. It runs programs located in the Jane/Finch Mall, in the schools and other locations that are convenient for the youth to access safely. The centre had a weekly program for Young Muslim Youth as well as a support group, “Never Too Late Group” for youth that are involved with the law. In the coming fiscal year 2008-2009, the centre plans to introduce Music Therapy and a joint initiative with Youth Unlimited called “What Is Your Story?”

The Short Term Crisis Safe Beds Support Worker developed a program housed at Seaton House to provide consultation and support for homeless South Asian men and specifically Punjabi speaking individuals who are experiencing severe mental health problems and/or substance use. In addition, the worker has established relations with Mental Health Diversion Workers in the different courts to facilitate access to appropriate services of this population including the Crisis Safe Bed.

The Advocacy and Leadership Training series for Consumer/Survivors continues to be very popular among our current clients. The training is now offered twice a year in the spring and in the fall. We had 8 members who received certificates for their participation during the spring session.

Across Boundaries has also started the process to join the Concurrent Disorders Transitional Support Partnership This is a coalition of 16 agencies serving individuals with both mental health and substance use issues. A Memorandum of Understanding (MOU) is being developed to finalize the partnership.

Recognizing the changing needs of mental health in our target communities, Across Boundaries came out with a report, “Advancing Anti-racism in Mental Health Services: A Needs Assessment for Racialized Communities in Toronto”. The report led to a study in the following fiscal year on 3 different areas: Trauma, Concurrent Disorders and Mental Health Needs of Older Adults from Racialized Groups. The result and recommendations from these studies will help guide the development of new programs that will appropriately serve the needs of these population.
Y-CONNECT is a program run by Across Boundaries in partnership with Griffin Centre to offer mental health and substance abuse services for youth between the ages 15 to 24 in the Jane-Finch area and surrounding communities.

Over the past year, the community we serve has suffered from a number of tragic incidents arising from issues of poverty and gang related violence. As a result, many youth and their families were shaken and felt very reluctant to come out and participate in different services provided in the community. During the summer, most young clients needed to work in order to support themselves and their families, which also made it difficult for them to join our programs. In the midst of all this adversity, we continued to make meaningful community linkages and implement the following programs:

- Community Outreach
- Individual And Family Support / Counselling
- Health Promotion and Education
- Youth Drop-In Program
- Youth Support Groups held in shopping malls, schools and community centers.

As the new school year starts, our goal is to make our presence more visible in the communities to offer programs at various locations through different partnerships. We have formed a youth advisory committee, including current and former clients and service providers from neighbouring organizations, to meet and discuss the arising issues and needs for youths in this community as well as provide input into Y-Connect prosperity. In addition, our Movie Afternoon, Young Muslim Women’s Group, Never Too Late Group, and Music Therapy are also open to youths on weekly a basis.

Our goal for this year is to recover from grief; overcome obstacles and grow together with the community.
“Let it never be said by future generations that indifference, cynicism or selfishness made us fail to live up to the ideals of humanism which the Nobel Peace Prize encapsulates. Let the strivings of us all, prove Martin Luther King Jr. to have been correct, when he said that humanity can no longer be tragically bound to the starless midnight of racism and war”.
